Judicial Conduct Board  
Empire State Plaza  
Albany, New York

Dear Board Members,

I am hereby filing a petition of misconduct against Judge L. Foster James of Saratoga County and Judge John J. Warner Jr. of Schnectady County. This is based upon the fact that they have either ignored or have refused to hear evidence that is detrimental to my ex-wife.

On September 14, 1987 I am again to go before Judge Warner and do not feel that I can get a fair trial. I am also forced to file another petition in Family Court tomorrow which I also do not believe that I can get a fair hearing.

Attached to this petition is evidence that I have gathered. There is some duplication because some of the material is being used in my petition to Family Court, but not all of it. I also have transcripts and other evidence that is not contained in this petition.

Another point of concern to me is that my ex-wife's mother works as a supervisor for the County of Saratoga in the computer room. With her job she has access to the heads of the different departments in Saratoga County both directly and indirectly. She is located in the Municipal Center in Balston Spa. Neither I nor my parents are residents of Saratoga County.

I would appreciate you looking into this matter. If you have any questions my phone number is 452-3486.

Thank You,

---
