Dear Sir

The judges involved in corruption are; Stephen A. Ferradino, L. Foster James, John A. Simone Jr and Hearing Examiner John J. Warner Jr.

On appeal, the decision of Judge Simone was overturned.

Documentation will show:

1. Conspired to prevent Charles Collins from getting a fair trial.
2. Misstated, misrepresented and lied about the facts, the evidence, and the testimony in their decisions.
3. Covered up evidence that was vital to the case.
4. Refused to enforce Court Orders.
5. Allowed and covered up perjury in the Court.
6. Allowed Attorney's to engage in fraud, use perjured testimony, and to make knowingly false statements of fact and law.
7. Covered up possible perjury by an attorney under oath.
8. Based decision on statements, made by opposing attorney, made off the record. No testimony was allowed.
9. Told litigant to sell property that judge knew did not belong to the litigant.

These are just some of the charges against the above. At the beginning of each section I have included allegations against each judge. The documentation that follows proves each of the allegations. All documentation is 100% verifiable.

In August of 1987, I sent documentation to the Albany office of the Judicial Conduct Commission, They saw nothing wrong with what the judges were doing. (Letter attached)

On February 15, 1989, I again sent documentation to the Albany office. I talked to Mr. Steve Downs on February 17, 1989. He stated he had read part of the documentation. He

asked me to explain in three sentences what the alleged misconduct was.

I wrote to the Attorney's General's office and they suggested sending the documentation to you.

Thank you

S/
