Dear Sir

I would like to file a complaint against the Judicial Conduct Commission. My complaint deals with the fact that on two occasions they have covered up corruption in the Judiciary. (Letters attached: September 25, 1987 and April 4, 1989)

I would also like to file a complaint against David A. Wait, District Attorney for Saratoga County. Mr. Wait is not only covering up the judges misconduct but that of Saratoga County Employees. (Letter attached: March 20, 1989)

The judges involved in corruption are: Stephen A. Ferradino, L. Foster James, John A. Simone Jr and Hearing Examiner John J. Warner Jr.

County employees are: Arlene M. Palumbo, Leo Casey.

On appeal, the decision of Judge Simone sentencing me to jail was overturned.

Could you explain to me how I got a fair trial and why it is completely all right for the judges to violate the RULES OF CHIEF ADMINISTRATOR OF COURTS; PART 100; JUDICIAL CONDUCT?

Documentation will show:

1. The judges have misstated, misrepresented and lied about the facts, the evidence, and the testimony in their decisions.
2. Covered up evidence that was vital to the case.
3. Allowed and covered up perjury in the Court.
4. Allowed an Attorney to engage in fraud, use perjured testimony, and to make knowingly false statements of fact and law.
5. Covered up possible perjury by an attorney under oath.
6. Acted as co-counsel for one of the attorneys.
7. County employees have knowingly and consistently filed false violation petitions against me.

8. That my support checks were stolen by county employees, (employee unknown), When I called I was told "don't worry we have copies of your payments." (see Support Collection)

These are just some of the charges against the above. At the beginning of each section I have included allegations against each judge. The documentation that follows proves each of the allegations. All documentation is 100% verifiable.

My rights have been completely ignored by the Courts. Are the Judges above the law? Where do I go from here?

Thank you
